#### **TO ALL CONCERNED PERSONS AND AGENCIES:**

The Regional Water Quality Control Board, Central Valley Region will consider adopting revised waste discharge requirements (WDRs) for the Altamont Landfill at its meeting on **23/24 April 2009**. The WDRs are being revised to approve the Discharger's request to recirculate leachate and landfill gas condensate in composite-lined landfill modules; to approve the liner system components for an expansion area designated as Fill Area 2; to approve the liner system components for two new Class II surface impoundments that will store treated landfill leachate; to approve an engineered alternative final cover for Fill Area 1, Unit 1; and to revise the groundwater and surface water monitoring programs.

Electronic copies of the proposed tentative WDRs and the Notice of Public Hearing are available for viewing and downloading on our website at [www.waterboards.ca.gov/centralvalley/board\\_decisions/tentative\\_orders](http://www.waterboards.ca.gov/centralvalley/board_decisions/tentative_orders).
